

Tekzone, Selfridges London

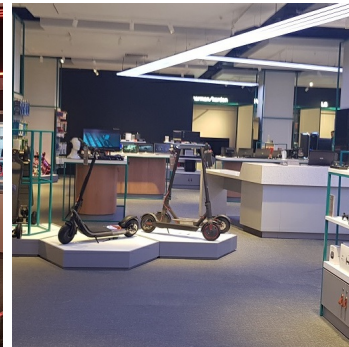

Client: Tekzone

Fit Out Project Duration: 6 weeks

The refit of the Tekzone concession within Selfridges lower ground floor was split into two phases to run both day and nights to minimise time on site.

The works package included a full strip out, hoarding of area, and removal of services. Installation of wall partitions, floors and specialist finishes sourced from US & Continental. Coordination and management of incumbent contractors for Selfridges and client direct sub contractors for life safety system, sprinklers and PAVA system.

The installation also included supply of fixtures which were designed following meetings with the client to ensure bespoke design suited to the client brand, selling various technology items from speakers and sound-bars to scooters and screens.
