

**Hotpod Yoga, Brixton Head
Office**

Client: Hotpod Yoga

Fit Out Contract Duration: 2 weeks

We carried out the original fit out works a couple of years prior and, as Hotpod's HQ staff numbers increased, they invited us back to help expand their office space. This involved moving and re-installation of the main office partition wall with double glass doors. Re-boarding of a curved wall to create a more private office space, along with creating a new office space with solid and glass screen walls. Small alterations to the ducting system were required, along with new lighting, data and power, as well as a re-fresh of decorations throughout, and supply and installation of bespoke joinery desks, shelving and retail units.

We have now carried out quite a few projects for the Hotpod team, for their offices and their Yoga fitness studios, and they are always fun to carry out. The repeat business shows the good relationship we have built up with them over the numerous successfully completed projects.
